

Newsletter July 2020

Dear Brothers and sisters in Christ:

Grace and peace in the name of the lord Jesus Christ from Nazareth Israel, we pray that all things are good so far, especially at this time of the Corona pandemic, remembering you in our prayers often, thanking God almighty for your support which allow us to continue to do what God command us to do.

It has been said that the world has a new life style order, and in deed we can feel it. We are not like we used to be. Our work has a new look and new approach. Still there are people who change their lifestyle and still are afraid to come to church. We tried to explain many times that it is ok and according to the government Laws, but their fear holds them away. We even cannot do a home bible studies like before. They suspect that we might have been with other people who might had this disease and that we will transmit it to their homes and families. Especially in these current days, the corona virus is coming back with a hight number of people that are getting the disease. Just yesterday there were 714 new cases and today there are 420 in Israel. In other words, we have no freedom like we used before, communication tools took over our daily tasks (for example we cannot visit the sick in hospitals but we can only talk to them over the phone), and when we

meet we stay 2 metres away from each other, no more hugs, kisses, shake hands. It is hard but we have to get used to that new world order . We continued our ministry in worshiping on Sunday's and bible studies on Wednesday and it seems to me that it is a great work. We can feel that the increase of attendance in number is getting good because we always have new people who are interested in knowing about us and they demand that they meet with us at the church building and not in their homes. I had many bible meetings at the office. They believe it is safe since we are only two persons who are meeting. We pray that this issue will end quickly as we love to go back to our normal lives and times. Hospital visits have been stopped according to the government laws which prevent me from doing one of the needed things that I like to do. I am using my cell phone for visits and prayers. Our bible trips have also been stopped hoping in August they will be re-open. I am thinking about what the Lord is planning to do at this period of time. I just can't find an answer. May be later we can all see.

So what we did, while this issue of the Corona is still going on, is we went ahead with our building plans. We, (all men) as one body, put our hands in work and made a big change concentrating on our future as you will see in the pictures. We started accomplishing our plans like we decided last year. We prepared the lot for the new building and at the same time we can use it as parking

places until we get the means by which we can start building our new church building.

But what did amaze me is that God almighty provides some financial help from brothers who visited us lately. Our last groups in March the 1st and March the 7th, just few days before freezing all activates, some beloved brothers, contributed to us some money that help started the first step of the program, and some contractors who have done some of the work for the church for free even some are Muslims. I can see and live what Genesis 22:8 means: God will provide.

In the past ten years I worked hard to provide plans to the new building. I met with elders and mission committees all over. I have been turned down but I did not loose hope. I have prayed ten years and I am still praying. I have 52 years of experience and I believe with all my heart, and my heart is at peace, that the solution for becoming an independent and self-supporting is to build that building of worship. More people and more visitors can be at one place with 150 seats and the old building can be used for income in many different ways: educational, catering , day care , and many other means. That is what most churches in Nazareth are doing and become independent.

I am tired from traveling to the States and asking for support. I do not want the one who will come after me to

suffer from those trips. He will find the financial support here at the church and he can concentrate on his work of seeking the lost. and what is amazing in this issue is that the church men told me that they have the faith and trust that this time it will work. They have a feeling that this time it will work. Those words gave me the strength to continue. They told me that they will go to every business in Nazareth and knock on their door and ask for help to build the church building. They are positive that it will work. Also they will do their part .

Beloved brothers and sisters you have been helping us for a long time and we do appreciate that very much , I just can't see how we can survive without you, we are close to the last step. We still need your help to push us to the safe side of the shore. We know that God will provide and use you and enable you to help us accomplish this goal which means a lot to us. Please pray with us and see what the lord will answer. We love you and miss you a lot. We pray that we can see you soon here at Nazareth.

Our Architect will finish his work soon and I will send you our program for the new building and the cost. Hopefully with words of mine and three dimension pictures, you can have the full picture and I will with your help distribute it to many churches who know us or had been here before in hope that I can find ears to hear our

pledge and request for Nazareth new church building. A place where we can be glorifying God's name .

Enclosed are some pictures for the work that has been done in those three month .

Love you all
Maurice & Inaam Jadon
Nazareth, Israel
